EDITORIAL & WRITING EXPERIENCE

Oxford Review of Books (*Oxford's leading literature and cultural review*)
Editor

Oxford
2018 – Present

- Editor of publication centered around culture and literature. Sourced, edited, and contributed articles; hired and managed a team of writers; organized lectures and events with leading writers; distributed nationally in WH Smiths and the London Book Fair; previous issues have featured poetry by Simon Armitage and interviews with writers from Salman Rushdie to Sally Rooney.

Oxford Political Review (*Publication focusing on current affairs, political theory, and international relations*)
Deputy Editor

Oxford
2018 – Present

- Sourced, edited, and contributed articles; led interviews and production of the publication's podcast series (available on Google, Apple Podcast app, and Spotify); hired and managed writers and section editors. Past issues have included interviews with thought leaders from Australian Prime Minister Kevin Rudd to philosopher Peter Singer.

Oxford Student Newspaper (*Oxford's largest student newspaper*)
News Deputy Editor

Oxford
2018 – Present

- Editor and contributor for the news section. Provided analysis of political debates and speeches around Oxford along with other university related news.

The Daily Princetonian (*one of the oldest college newspapers in the US*)
Columnist

Princeton
2016 – 2017

- Opined on issues such as free speech, gender equality, and affirmative action.

WORK EXPERIENCE

Analysis Group, Inc. (*Vault #5 Best Consulting Firms for Economic Consulting*)
Analyst

Boston, Massachusetts
July 2017 – July 2018

- Economic consultancy offering rigorous econometric analysis for corporate litigation and health care outcomes research.
- Produced the analysis and data visualizations (using multiple coding languages) for expert reports in corporate litigation.
- Web scraped data and provided the main analysis for two academic papers (pending publication); the first is on DOJ antitrust enforcement bias and the second on the inefficiency of pension systems in Massachusetts.

Amazon
Operations Finance Analyst

Tokyo, Japan
Summer 2016

- Data analyst working on Amazon's supply chains; worked to reduce costs by predicting inbound shipment quantities.
- Improved operational efficiencies by 12% (saving Amazon JP ~\$1M) by augmenting their inbound shipment forecast using econometric regressions.
